

GEN. CARNES

Does Not Expect Any Further Trouble at Coal Creek.

No Quarter To Be Given Miners When Resistance Is Offered.

If They Offer to Shoot, Shoot Them Down Like Dogs!—The General is the Hero of the Hour—Unrepentant Miners Cry for Vengeance.

NASHVILLE, Tenn., Aug. 22.—The war is over, and Gen. Carnes is the hero of the hour. The miners who were captured will be tried tomorrow in the circuit court at Clinton. About 4 o'clock Sunday morning the Chickasaw guards, who were protecting the battery, were approached by a body of men, presumably miners, whom they challenged, and failing to get any response, fired on them, when they disappeared in the darkness. It was too dark to determine just who they were, but they were supposed to be a body of miners who had sneaked down from the mountains and were attempting to spike the battery.

Fresh prisoners are being brought in every few minutes. Gen. Carnes instructed his men to shoot no quarter where resistance is offered. Said he: "If they offer to shoot at you, shoot them down like dogs, and leave them for the dogs to eat. I'll see that their bodies are not moved. No law in Christendom will convict you for killing these villains in self-defense. They would kill the last of you if you had a chance, and I want you to show no quarter when they resist."

The situation is unchanged, but the trouble is far from over. Some of the most desperate miners, who have not been captured, have told some of their friends that they would have revenge. Their method of fighting is to creep up and whenever they are charged they always retreat, although in practically impregnable positions. The main danger from them is that they will find some place of villany they are very expert.

Kellar Anderson is in full possession of his position. He is about a mile from Gen. Carnes' force, but communication is perfect. The troops are gritty, but they are physically exhausted.

Canada Gets a Dose of Red Pepper.—WASHINGTON, Aug. 22.—President Harrison Saturday issued a proclamation suspending free passage through the St. Mary's Falls canal, so far as Canada is concerned.

OTTAWA, Aug. 22.—The intelligence that President Harrison had issued his proclamation against Canada has created no little excitement here. None of the ministers here are disposed to express any decided opinion at present as to what action Canada will take, but the American "Soo" canal is to all intents and purposes closed to Canadian vessels, owing to prohibitory duties. President Harrison's action was totally unexpected. Judging from the undercurrent of feeling displayed in official circles the Canadian government will not likely yield.

The Weather.—WASHINGTON, Aug. 22.—For Ohio—Fair, preceded by showers in southern portion; variable winds. For Tennessee and Kentucky—Fair, except showers in eastern Tennessee; slightly cooler in eastern Tennessee; central Kentucky north winds, becoming variable.

For West Virginia and Western Pennsylvania—Fair, preceded by showers in West Virginia; slightly warmer, variable winds.

For Indiana and Illinois—Fair, except showers in extreme southern Illinois; variable winds.

Convicts Must Be Removed From The Pen.—NASHVILLE, Tenn., Aug. 22.—The state board of prison inspectors reported today, in accordance with a resolution passed with the Tennessee Coal, Iron and Railroad Co., all convicts in excess of four hundred, and women and hospital inmates must be removed from the penitentiary, in which there are 1,070. The board agrees to furnish guards for the safe keeping of the convicts wherever the company may desire to locate them.

A Greaser Shot and Killed.—CHARLESTON, W. Va., Aug. 22.—V. D. L. Samples and wife, who have a grocery store in Upper Elk City, a suburb of this city, were engaged in counting their money in the back room of their store when a masked man entered the back door and made a grab for the money. Both Samples and his wife grappled with the robber. Mrs. Samples took the mask from the fellow's face, and in order to get away from the husband he shot him in the right side, death resulting almost instantly.

A Railroad Engine Exploded.—MEMPHIS, Tenn., Aug. 22.—While an engine 302 was pushing a heavy freight train for the Iron Mountain near the bridge, the boiler exploded, and the engineer James Blundell was thrown into the air one hundred feet and instantly killed. Fireman Robert Prater was torn to pieces and the engine was demolished and the track torn up.

Cardiff Giant Examined.—INDEPENDENCE, Ill., Aug. 22.—Sunday the body of the famous Cardiff giant, which has been buried under a very stable in this city for twenty years, was examined by Bruce L. Baldwin and P. C. Cumming, circus managers, and was exhibited by a large number of persons.

Colt Gun in Time.—COLUMBUS, O., Aug. 22.—There was another sensational attempt to assassinate at the penitentiary Sunday night. James Duff, a federal prisoner from the Western district of Arkansas, attempted to hang himself. He was cut down by Capt. Kirkland as he was about to breathe his last.

Dr. Talmage's Brother Dead.—NEW YORK, Aug. 22.—Rev. Dr. John Vannest Talmage, of the Brooklyn Tabernacle, died at his home in Tarrytown, N. J., aged 73 years.

AN EDUCATION FREE.

A Card From Judge Plister Which Ambitious Young Men Should Read.

To the Young Men of Mason County: He is a fine opportunity to go to College free.

The President of the State College at Lexington has notified me that Mason County is entitled to send one student this year to the State College, who will receive his education free of charge except for board and clothing.

This student must be over sixteen and under twenty-one years of age and must be selected by competitive examinations from among those who apply.

This is an excellent opportunity to secure a collegiate education and I desire you to make an effort to secure this appointment. The examination required is not difficult, and any student who is well educated will be able to meet it.

It will consist of written and oral examinations in reading, writing, spelling and geography.

In accordance with the directions of the President I have selected a board of examiners who will meet at the Commercial Club room in Mayville on Saturday, September 3d, at 10 a. m., to examine the applicants for the appointment.

That a student of young men will make the effort to secure this fine education, and attend the examination. I feel assured to furnish any further particulars on request.

THOMAS R. PLISTER, County Judge.

DIED, yesterday morning, infant child of Mr. and Mrs. Henry E. Pogue.

The Ashland Horse, Lexington, has been enlarged until it now contains seventy rooms.

In Hopkinsville Addie Snyder, aged 2 years, was kicked in the head by a horse and fatally injured.

The stables at the Fair Grounds are well filled with horses, some of them famous of the world over.

If you don't come to the fair you will be sorry when your neighbor gets home and tells you about it.

The contract has been closed for the building of an electric line between Catletburg and Ashland.

RECENT meeting of Pisgah Encampment, No. 1, O. O. F., to-night, when the members of the lodge were present.

It is said that the English Government has decided upon its commission to the World's Fair, but the names have not yet been announced.

It is said that a man from enlightened and civilized Mayville had the nerve to tell the workmen at the camp-meeting yesterday.

SOMETHING was wrong with the train dispatcher of the electric road yesterday. The high wheels in the bottom formed several "head" collisions.

At Tyrone, Anderson county, John Howard shot and killed William Hicks. Howard was arrested, but claims the shot was fired in self-defense.

GENERAL NATHAN KIMBALL, who is called by his military friends the hero of the battle of Winchester, is now Postmaster at Richmond, Va.

Mrs. LIZIE HICKS, a widow living in the suburbs of Richmond, Va., shot and killed her sixteen-year-old daughter, mistaking her for a burglar.

PRINCE BISMARCK's favorite son is said to be no more. The elder Count Herbert, his younger, Count William, who is President of the Council of Hanover.

As soon as the new generator gets into working order at the power-house there will be no stoppage in the street car traffic such as occurred yesterday.

With the street cars running direct to the grounds and C. and O. trains leaving for the market street every 20 minutes, no trouble will be experienced in getting to the grounds.

Mrs. MARY HARDING favored THE LEDGER with some elegant peaches and peaches. They are of a large and delicate variety and we are informed she has a quantity of them on hand.

Those having articles for exhibition in the National Hall will be called to the hall by hand in same as soon as possible. He and his assistants are on duty at the Fair Hall.

The L. and N. people have a way of placing their cars directly across the walk leading from the tracks up to Forest avenue, causing much annoyance to pedestrians.

GENERAL A. K. ANDERSON, Commander of the Tennessee soldiers, arrived in suppressing the Coal Creek strike, is a native and well known in the law for many years in that city and in Paris.

Arrangements have been completed for the entertainment of the Knights of Pythias at Kansas City. Ten thousand Knights will occupy tents in a camp near the city.

There is no longer any danger of a serious case of diphtheria in Mayville. The reports of its ravages have been greatly exaggerated throughout the city and surrounding counties. There is practically none here now at all.

The Baby Show.

In making up the program the fair management, by an oversight, neglected to insert the usual baby premium.

There was not the slightest intention that the babies should be left out.

The baby show is one of the features of Thursday afternoon. The premium will be as follows:

Brightest, prettiest and best white baby 18 months old or under, \$10.

Entries can be made to the Manager at Floral Hall.

To-morrow is ladies' and children's day at the Fair Ground, they being admitted free of charge.

It is the desire that they come and consider themselves the special guests of the Company.

Tried to Murder a Street Car.

William John Adams is a poor marksman and carries a gun. He tried to annihilate a street car and a load of passengers Saturday afternoon but did no harm.

He fired twice at a passing car on East Second street and created quite a scene. William was arrested and will hear from Mayor Pearce this morning.

A Buggy Squire at Aberdeen.

The matrimonial market of Aberdeen is in a state of chaos.

After having been conducted in an honorable manner for over a score of years by the venerable Master Beasley, who is now critically ill, it bids fair to fall into the hands of unscrupulous schemers, who perform the sacred rites of marriage with no authority by law or precedent.

Those who seek Aberdeen as a place of marriage should realize that their honor and the sanctity of the marriage will be sure to fall into the right hands.

Jumped From the Trestle.

In spite of the warning of the railroad men and the threat of the police some people will persist in walking over the trestle.

Yesterday morning two boys, Thomas Curley and James Brown, aged about 15 years, were caught by the Eastbound passenger train at the point in the trestle over Limestone creek.

Brown managed to crawl on to one of the projecting ties out of harm's way, but Curley became frightened and jumped, falling a distance of full thirty feet. The high wheels in the bottom formed several "head" collisions.

No bones were broken and Dr. Pangburn pronounced him all right this morning.

Will Soon Get Even.

The nomination of Ex-Senator John C. Spooner for Governor of Wisconsin received a heavy vote when he was the private secretary to Governor Lucius Fairchild in 1870. Mr. Spooner was then a young man, and he was loaded, and ask that official if he would not act upon it favorably.

Young Spooner said to the Governor that it would be an honor for him to be elected Governor, but he would not do so until he had been elected by the people.

He said that he would be elected by the people, and he would be elected by the people, and he would be elected by the people.

A Word to Republicans.

The hope of the party lies in the expression of a statement of the principles of the Republican who reads or otherwise helps to support a Democratic paper to the exclusion of one of his own party newspapers is untrue to the Republican cause.

Continuously subscribed to by the National Republican League.

J. S. CLARKSON, President.
A. B. HUMPHREY, Secretary.

It looks as though ADAM STEVENSON, with the earnest co-operation of HENRY HATFIELD, might be able to carry Kentucky for CLEVELAND and the Democratic ticket.

ARTHUR PUE GORMAN has declined to assume responsibility of running the coming Democratic campaign, has punctured the Democratic pretense of economy in the present Congress, and, with a bland smile, has gone home.

MR. DICKERSON, Democrat of this state, was not unreasonable when he maintained that if it were competent for the House to appropriate money for the World's Fair he was not willing to for a nugget of appropriation of half the amount needed.

MR. CLEVELAND has expressed by letter to CEARL CELSO MORENO his gratification at the latter's intention to support him. If a sharp investigation were set on foot, probably a letter could be found from MR. CLEVELAND to the man that struck LARRY PATTERSON.

WHEREVER the present House has made a reduction in expenditures over that of the last House it is in the matter of some necessary expenditure of the Government, such as coast defenses, new Navy vessels or the like, which must be provided for some time in the future. That is mighty poor economy.

SOUTHERN Democratic newspapers are pleading that it is "entirely consistent to be Democrats and Alliance men at the same time." That is to pose before the people as Alliance men until elected and then to act as Democrats. That is about all there has been of the Alliance thus far in the South.

SOUTHERN Democratic Congressmen feel that they risk their chances of reelection by voting for an appropriation for the "Northern" enterprise of the World's Fair, though their constitutional scruples did not prevent their voting for the New Orleans Exposition. What is the "New South" exploited by the late HENRY W. GRADY.

PROMPTLY upon receipt of intelligence of the result in Alabama, MR. CLEVELAND comes forward with a very sympathetic and touching letter to the Secretary of a Colored Citizens' Club, in which he assures that person that "I am especially gratified by the confidence which this portion of our fellow-citizens is inclined to repose in me, and I am sure that I desire to do my full duty toward them." These men, who vote the Democratic ticket have seemed to be, in the minds of candidates, "damagers," and have all at once become "colored brothers."

The D. acoerats seem to think that appropriating \$2,500,000 for the World's Fair violates the Constitution only half as much as to appropriate \$5,000,000.

The following are propounded by The American Economist:

If Protection does not raise wages, why are the wages of silk workers in England 30 per cent. lower than they were in 1901, while wages of American silk workers have all the time advanced?

If it is "monopolistic," why are the greatest monopolists in the country arrayed against HARRISON and in favor of CLEVELAND?

If the Free-trade editors are not all convicted falsifiers, why does not a single one of them accept our challenge to deny that the paper used by them to write lying Free-trade editorials is cheaper now than it was before the new Tariff law was passed?

If reciprocity is a "step toward Free-trade," how is it a "sham"?

If it is not taking trade from foreigners, why do foreigners fiercely assail it?

If Free-trade is "humanitarian," why was Cardinal Manning a Protectionist?

If free wool would give cheaper wool to the manufacturer, how would it give dearer wool to the farmer?

Why have Free-trade and nullification, Free-trade and secession, Free-trade and slavery, Free-trade and treason, all ways gone hand in hand?

If your campaign is one in behalf of truth and righteousness, why did you prevaricate so shamelessly about McKinley prices in the elections of 1897?

If we are a poverty-ridden people, why is ours the one country on earth to which the flood of immigration turns?

If Free-trade England is blessed with greater prosperity than ours, why do not immigrants flock thither?

If the Tariff imports by exactly the price of goods made in this country, how do wire nails sell for 15 cents a pound, although the Tariff on imported wire nails is 2 cents a pound?

If it is true that the abolition of duties on imports would reduce the prices of domestic products by exactly the same amounts, would wire nail manufacturers under Free-trade give their nails away and present each customer with half a cent a pound on all he bought?

Do you find it congenial to work in concert with foreign enemies of your own country's industry?

IS GROVER CLEVELAND, Free-trader, who hired a substitute, a greater patriot than GEORGE WASHINGTON, Protectionist, who led the Colonial troops through eight years of terrible warfare to victory and independence?

And Whisky Did It All.

Thirty years ago William Sprague was the young Governor of Rhode Island, and the richest man in the state. He entered the army and became a Brigadier General, and quitting the army, he took his seat in the Senate of the United States. He married the daughter of the Chief Justice of the United States. Then he fast struck his hand on the hilt of his sword, and he began to retrace his steps towards the bottom of the eminence on which he had stood. His wife left his home, and he was left with her children. Then he failed in business, the liabilities of the great estate he had left him had belonged being \$14,000,000. The whole fabric of his vast fortune melted to nothingness, and he had left to him but the roof of the house in which he had ruled like a prince. To-day he is a Constable, eking out of that petty office a bare subsistence. And Whisky did it all.—Frankfort Cap. Del.

Telling Secrets to Men.

It is the mistake of a lifetime to give a man any liberty which you would not want known, and to expect him to keep the matter a secret, says Ella Wheeler Wilcox. The exceptional man will sometimes hide the indiscretion of a young girl whom he believes spoke of acted from ignorance, but the average man, in the highest the same of the world's walks of life, boasts of his successes with foolish women, and the rendezvous, the letter, the embrace, or the souvenir which she has given him, thinking it will never be known to others than themselves, is shortly the matter of gossip among a dozen people.

Women hide their secrets far better than men do. They fear the censure of the world too much to share their errors or indiscretions with confidants. But men are almost invariably vain and proud of their conquests, and relate their achievements with the fair sex to the one or two admiring friends. They may not use their names, but let the incidents once be told, it is an easy matter to discover the personages if one is at all curious to do so.

The only way to keep men from betraying our indiscretions is not to commit them. I once made these remarks in the presence of several ladies, and one of them replied, "that was glad she had never been acquainted with the class of men I knew."

That lady's name had been used lightly in a clubroom not a week previous, and her indiscrete act had been commented on by "the class of men" she did know.

If the campaign ladies who started the report that Judge Gresham was about to take the stump for the Third party ticket ever get into his court he will probably commit them for contempt. The campaign ladies should steer clear of the Judge. He has a great deal of jurisdiction over people of their class.

BALLOON ACCIDENT.

A Stray Spark Sets Fire to the Air Ship—It Collapses and the Female Aeronaut Fell to the Earth.

COLUMBUS, O., Aug. 23.—A picnic was held Sunday evening at Shooting park, and a balloon ascension, with a sensational parachute leap, was the principal feature of the day's entertainment. Mrs. Prof. Watson Steele was the ascensionist, assisted by Lew Morehead, both of whom have gained considerable notoriety in similar events. The balloon was a hot-air affair. The heat was generated by a bonfire, over which the huge canvas bag was held until inflated. At 6:30 o'clock Mrs. Steele took her seat in the car and the word was given to cut away the guy ropes. In an instant the balloon floated gracefully upward.

When the air ship reached a height of 300 feet a frightful flame shot from inside its folds.

It had been ignited by a spark from the bonfire. Mrs. Steele, the ascensionist, did not see her peril until she was warned by frightened exclamations from the crowd below. She looked upward, and half of the balloon was suddenly engulfed in flames. It stopped its upward course and fell like a fatted toward the earth. Mrs. Steele attempted to save herself with the parachute, but when she tried to cut the rope, holding it to the burning balloon, her efforts were unsuccessful.

She finally succeeded in getting it loose and leaped from the car. Just as she made the leap for life the burning balloon collapsed and fell on top of the parachute, turning it sideways. Then balloon, woman and parachute fell in a tangled mass toward the ground. In falling Mrs. Steele struck the roof of a barn with terrific force. She rolled off this structure and fell to the earth. Children screaming ran toward the scene and pandemonium reigned supreme. A physician was hastily summoned, and found Mrs. Steele unconscious. She was taken to her home at Fremont and State streets, where a closer examination developed that her skull had been fractured by the fall.

BUB LINDSAY'S

Neck Spared Through Solemn Promises—About a Lashing.

COAL CREEK, Tenn., Aug. 22.—A determination to Lynch the notorious desperado and mine's sympathizer, Bub Lindsay, has been plainly manifested among the citizens of this place. Sunday night about 10 o'clock a party of them through a sick piece of strategy obtained possession of Lindsay and marched him down the railroad toward Briceville with the full determination to forever end his devilment.

Lindsay has been the terror of the entire section of country for a long time. No less than seven men are claimed to have met death at his hands, and it can be readily seen why he has been an object of such enmity.

The party had not proceeded far when they halted in a ravine to put their plans into execution. They gave Lindsay a chance to speak for himself. How well he improved the opportunity was shown by later developments. He pleaded piteously to the crowd, and on making the most solemn assurance that he would forever forego his wicked ways, and would furthermore conduct the soldiers to and point out every mine implicated in the late troubles, his life was spared and he was conducted back to camp on these conditions. He will be used as a means of identifying these outlaws, and vigorous measures will be put on foot to bring these lawless ones to justice.

HURLED FROM A TRELLIS.

Five People Killed and Many Injured in France.

PARIS, Aug. 22.—An express train was hurled Sunday afternoon while crossing the bridge over the Lorie near Bessiers. The cars followed the engine over the trestle and down to the river bank. Of the forty-three passengers five were killed and eighteen were seriously injured. A train sent out from Bessiers carried the dead and wounded back to the city. The cause of the accident is said to have been the displacement of a rail which apparently had been pried loose for the purpose of making the train pass. The rail was looking for a laborer who is supposed to have moved the rail. The locomotive and cars were piled in a heap on the river bank. The locomotive will be available again, but the cars are a total loss.

Prosecution to Begin at 9 o'ce.

NASHVILLE, Tenn., Aug. 22.—Gen. Carnes telegraphed the governor Sunday that on Monday trials of all his prisoners against whom cases could be made out would be begun before a civil magistrate at Clinton. Adjt.-Gen. Norman replied: "Procure best counsel obtainable, and send all prisoners bound over to the Knoxville jail for safe keeping." The charges against the men will be murder, attempted murder, assault and battery and resisting officers.

Worms Damage Cotton.

COLUMBIA, Miss., Aug. 22.—Reports are coming from various parts of this county that the boll worms have made their appearance, and are doing great damage to cotton. They are not confined to any class of soil, but are reported both in the prairie and sandy lands. They are said to be worse in the sandy lands than ever known before.

Texas Fever in Indiana.

INDIANAPOLIS, Ind., Aug. 22.—Texas fever was discovered among the cattle in West Indianapolis, near the stock yards, Sunday. A dozen cows have already died. The disease is rapidly spreading. Within the past few days several shipments of Texas cattle have arrived here from St. Louis.
